

EMBL PhD Symposium Travel Grants

EMBL Australia will sponsor ten PhD students to attend the annual EMBL PhD Symposium in Heidelberg, Germany, on 19-21 October, 2017.

The symposium, an annual event organised by first-year PhD students at the European Molecular Biology Laboratory in Germany, brings together fellow students from around the world for a three-day series of talks by leading experts. It's an opportunity to make connections with international scientists and get new insight into your own research direction.

This year's theme is 'Bridging the Gaps: Interdisciplinary Approaches in Life Sciences'. The program includes networking opportunities, poster sessions and workshops with experts. Find more information about the symposium and speakers at phdsymposium.embl.org/#about.

Applications are now open.

Grant value: Ten PhD students will receive financial support of up to \$3,000 to attend the EMBL PhD Symposium in Heidelberg, Germany.

Closing date: Applications close on 31 July. A letter of support from your supervisor must also be sent to student.admin@emblaustralia.org by this date.

The grants are open to students in almost any field – biology, chemistry, physics, mathematics, informatics, engineering and molecular medicine – who are currently enrolled in a PhD program at an Australian university and have not yet submitted a thesis.

Apply online at www.emblaustralia.org/careers-education.

For enquiries, contact student.admin@emblaustralia.org.

About EMBL Australia

EMBL Australia is a life science network that maximises the benefits of Australia's associate membership of The European Molecular Biology Laboratory (EMBL).

Officially launched in 2010, EMBL Australia aims to strengthen the nation's global position in life sciences by creating opportunities for:

- internationalising Australian research via the EMBL Australia Partner Laboratory Network
- training the best students and early-career researchers, and
- accessing key international infrastructure.

For more information on all of EMBL Australia's programs head to www.emblaustralia.org.
