Publications 2019

2. The Set1 complex is dimeric and acts with Jhd2 demethylation to convey symmetrical H3K4 trimethylation R Choudhury, S Singh, S Arumugam, A Roguev, AF Stewart (2019) Genes & Development 33 (9-10), 550-564

12. Loss of complement regulatory proteins on red blood cells in mild malarial anaemia and in Plasmodium falciparum induced blood-stage infection. D.A Oyong, J.R. Loughland, A SheelaNair, D Andrew, F. DL Rivera,
13. Induction and Kinetics of Complement-Fixing Antibodies Against Plasmodium vivax Merozoite Surface Protein 3α 
and Relationship with Immunoglobulin G Subclasses and Immunoglobulin M. D Oyong, D Wilson, B Barber, T 
Journal of Infectious Diseases 220 (12).

14. The regulation of CD4+ T cells during malaria. R Kumar, JR Loughland, SS Ng, MJ Boyle, CR Engwerda 
Immunological reviews.

15. Antiphosphatidylserine immunoglobulin M and immunoglobulin G antibodies are higher in vivax than falciparum 
 malaria, and associated with early Anemia in both species. B.E. Barber, M.J. Grigg, K Piera, F.H. Amante, T. 
Diseases 220 (9), 1435-1443.

Translational Medicine 11 (505), eaay7699.

(497), eaax9565.

18. Targeting malaria parasite invasion of red blood cells as an antimalarial strategy, A.L. Burns, M.G. Dans, J.M. 
Reviews 43:3.

20. Antibody Targets on the Surface of Plasmodium falciparum–Infected Erythrocytes That Are Associated With 
Immunity to Severe Malaria in Young Children, JA Chan, M.J Boyle, K.A Moore, L Reiling, Z Lin, W Hasang, M 
The Journal of Infectious Diseases 219 (5), 819-828.

21. Targets of complement-fixing antibodies in protective immunity against malaria in children, L Reiling, M.J Boyle, 
M.T White, D.W Wilson, G Feng, R Weaver, D Herbert Opi, K. EM Persson, J.S Richards, P.M Siba, F. JI 

22. Plasmodium falciparum Activates CD16+ Dendritic Cells to Produce Tumor Necrosis Factor and Interleukin-10 in 
Diseases 219 (4), 660-671.

23. Low levels of human antibodies to gametocyte-infected erythrocytes contrasts the PIEMP1-dominant response to 
asexual stages in P. falciparum malaria, JA Chan, D.R. Drew, L Reiling, A Lisboa-Pinto, B Dinko, C.J. 

24. Multi-functional antibodies are induced by the RTS, S malaria vaccine and associated with protection in a phase 
I/IIa trial, L Kurtovic, T Atre, G Feng, B.D Wines, JA Chan, M.J. Boyle, D.R. Drew, M. Hogarth, F. JI 

25. Anti-phosphatidylserine IgM and IgG antibodies are higher in vivax than falciparum malaria, and associated with 
10.

26. Malaria vaccine candidates displayed on novel virus-like particles are immunogenic and induce transmission-
blocking activity, JA Chan, D Wetzel, L Reiling, K Miura, D.R Drew, P.R. Gilson, D.A. Anderson, J.S. Richards,
