

# EMBL Australia PhD Course Sponsorship Information

**25 - 29 November 2024**

**Monash University, Clayton**

The event brings together more than 60 high-achieving Australian PhD students, giving them a head start in their science careers. The week long course is jam packed with scientific master classes from Australia's best researchers, hands-on learning, and soft skill development to set our next generation of researchers up for success. The course is modelled on the prestigious EMBL training course.

This year's course aims to cover topics such as:

- Tissue regeneration, organised by Dr William Roman
- Microscopy, organised by Dr Senthil Arumugam
- Genomics, organised by Dr Evan Healy
- Soft Skills and career development

## Sponsorship Benefits

- Recognition of sponsor on all event-related marketing and promotional collateral
- Sponsor listing on all event signage and in the program
- A trade table for giveaways, marketing material and networking with attendees and speakers

**GOLD**

**\$3000**

Benefits above plus naming rights to a guest lecture, excursion day or dinner

**SILVER**

**\$2000**

Benefits above plus naming rights to a poster or Three Minute Thesis Prize

**BRONZE**

**\$1000**

Benefits listed above.

## Custom Package: Sponsored Workshops

Custom workshops can be developed with the organising team. This could include a demo of products or tools, a training session. We will work with you to ensure that product application is a feature of the workshop.

Event organisers:

- » Dr Senthil Arumugam
